ABOUT ME

I am a PhD candidate from School of Creative Media, City University of Hong Kong, under supervised by Dr. Kening Zhu and Prof. Hongbo Fu . My research lies in the intersection of Human-Computer Interaction(HCI) and Artificial Intelligence (AI), in which I am currently focusing on investigating context-aware sensing technology, leveraging deep learning algorithm. I also have researches experiences on VR/AR haptic feedback, tangible interface design, smart wearable devices, and multi-modal interface design. I have publications on top conference such as CHI and IEEE VR, and top journal such as IJHCS and TVCG.
